

14' SD430 Saturn Inflatable Boat Order online at www.saturnrafts.com or call (800) 217-3270

The **14 feet SD430** is a heavy-duty inflatable workboat, great for water rescue, diving or day trips almost anywhere. SATURN SD430 boats have been used by many Fire Rescue and Emergency Departments across the country. 14' SATURN SD430 inflatable boats are made with premium quality materials, and can handle up to a maximum of 7 persons. Heavy-duty SD430 takes up to a maximum 40 HP outboard motor, but will run nicely with a 25 HP motor. As reported by our customers, even with a 15 HP outboard motor and 2 people this boat can plane nice and easy. Deflated, the SD430 boat will fold to the size of one large bag with tubes and another large flat bag with a floor. Once deflated and folded, the SD430 can be stored in the back of your SUV or minivan or in a large closet of your apartment. Double layers of fabric at the bottom of the tubes and rub-strike protector along the keel provide extra protection from sharp rocks and abrasive sand. The safety valve will prevent excessive air pressure in the boats chambers. 14' Saturn inflatable boats come standard with a 5 section heavy-duty marine grade plywood floor covered with gray resin.

SATURN SD430 FEATURES:

- All around rope grab line.
- Separate internal air chambers.
- One-way drain valve with plug.
